1. FdSc Hearing Aid Audiology - Programme Description and Intent

Welcome to the Foundation Degree FdSc Hearing Aid Audiology

This programme has been designed in partnership with public and private sector health and social care providers. It continues to be evaluated and updated to reflect changes in local and national health and social care agendas. It has been designed specifically to draw links between the theory and practice of healthcare and as such, clinical work based activity is central to your experience on this programme.

This programme has been designed to equip you with the skills, knowledge and behaviours required to work as a compassionate, competent and confident Hearing Aid Dispenser. As a Hearing Aid Audiology Apprentice, you will develop the academic knowledge and skills to enhance understanding of the key concepts of the knowledge base of the Hearing Aid Dispenser role and its impact on professional practice. As part of the programme you will apply critical thinking and problem-solving skills to both academic and clinical practice with active consideration of equality and diversity, personal and cultural awareness including an awareness of Prevent, which will support students to work across organisational boundaries.

Successful completion of the FdSc Hearing Aid Audiology programme provides eligibility to apply for registration with the Health and Care Professions Council (HCPC) as a Hearing Aid Dispenser.

This Programme Quality handbook contains important information including:

- The approved programme specification
- Module records

1.1. Programme Management

This programme is managed by Lucy Parkin (LParkin@southdevon.ac.uk), Hannah Rollins (hannahrollins@southdevon.ac.uk) and Giulio Specchia (antoniospecchia@southdevon.ac.uk)

1.2. Personal Tutor

Personal tutors are designated as a sustained and first point of reference for individual students on personal, domestic or academic matters; detailed information will be available in your teaching, learning and assessment handbooks.

Further information about personal tutoring at UCSD can be found by following this link to the [Student Development](#) policy.

1.3. Course Contact List

Information on the team can be found on the Clinical Education Page on the UCSD website: <https://www.ucsd.ac.uk/about/clinical-education/>

Giulio Specchia (antoniospecchia@southdevon.ac.uk)

1.4. Preparing for your programme

At UCSD, we understand that degree level study is a big step up from previous studies. To help prepare you for the degree we recommend engaging with preparatory activities. Each year UCSD organise step up to HE workshops, with a focus on supporting you to develop your research and writing skills, alongside academic techniques. For more information on the workshops and resources available, please visit our website: <https://www.ucsd.ac.uk/the-first-year-at-university/>.

The Student Support Hub is available throughout the duration of your programme and offers a range of services, acting as a first port of call for academic, study, wellbeing, disability, fees/funding, employability and progression support. When progressing to the next level of study of your higher education, there are also workshops and activities available to support you with progressing your graduate skills.

Preparatory reading is a great way to develop your knowledge and skills to be ready for the next level of study in higher education. Please see below some recommended reading to undertake prior to the start of your course:

Preparatory Reading

- HCPC Standards of Proficiency for Hearing Aid Dispensers - <https://www.hcpc-uk.org/standards/standards-of-proficiency/hearing-aid-dispensers/>
- HCPC Registration Requirements - <https://www.hcpc-uk.org/registration/>
- British Society of Audiology Resources - <http://www.thebsa.org.uk/resources/>

1.4. COVID19 Programme Planning

Covid 19 programme Planning	
General approach being undertaken	<p>We will follow government advice on social distancing and personal safety to ensure a 'Covid secure' working and learning environment. We know that we all may need to adapt if Covid conditions change. We will continue to provide a high quality learning experience utilising technology solutions as may be required.</p> <p>We will continue to update our dedicated Covid 19 webpage if and when circumstances change. We encourage all new and returning students to review this page to better understand the approach we are taking.</p>
Programme Teaching and Learning changes being undertaken	<p>In the event of another COVID outbreak affecting UCSD, we will continue to teach via our online platforms including Microsoft Teams to deliver module content and undertake assessments.</p> <p>UCSD will follow the recommendations set out by the Council of Deans and that of the Health & Care Professions Council (HCPC) as the Professional Statutory and Regulatory Body for the programme for continuation of practice based residential block delivery and assessment</p>
Programme Assessment changes being undertaken	<p>The Health Professions and Nursing Team are not proposing to make any changes to the assessments undertaken during this academic year.</p>

2. Programme Specification

2.1. Programme Details

Awarding Institution:	South Devon College
Teaching Institution:	South Devon College
Accrediting Body:	South Devon College
Language of Study:	English
Mode of Study:	Full Time
Final Award:	FdSc
Intermediate Level 4 Award:	Certificate of Higher Education (CertHE)
Programme Title:	Hearing Aid Audiology
UCAS Code:	2AUD
Benchmarks:	Foundation Degree Characteristic Statement (2015) The Foundation Degree Framework for the Healthcare Sector
Date of Programme Approval:	January 2020

2.2. Brief Description of the Programme

The curriculum has been developed in close collaboration with healthcare employers to ensure the integration of theory and practice and is aligned to the Apprenticeship standard for Hearing Aid Dispenser. The programme balances academic and practice-based demands to prepare students for Hearing Aid Dispenser in the public and independent sector.

Hearing is an incredibly complex area to study; diagnosing the medical conditions that can affect your hearing is a skill which you will learn and relies on many tests which you will learn about and be able to conduct. Equally, helping people with a hearing difficulty is challenging and will require significant skills from you to help them in their everyday life.

The course is focused on delivering the skills for graduates to be fit for purpose, practice and registration and encourages lifelong learning and emphasises the importance of Continuing Professional Development by utilising self-directed learning and reflection in a programme designed to support learners. Student's theoretical and work-based learning is reviewed and supported by highly specialised staff and peers alike in an encouraging and critically supportive environment which utilises the context of professional examples, discussions and placement. There is a strong synthesis between work-related and work-based learning enabling excellent theory to practice links. Not only will it focus on training to deliver safe and effective interventions that are evidence-based and responsive to the needs of diverse hearing-impaired communities, but also to be sensitive to the needs of service users and carers, working with them in partnership to empower and enable them.

Audiology is an exciting career with many avenues for employment and specialisation. It involves both a strong scientific interest and aptitude with exceptional interpersonal and communication skills, oral as well as written. Career opportunities are varied and include roles within the NHS, the private sector and with hearing aid and audiology manufacturers at home and abroad.

The FdSc Hearing Aid Audiology is an innovative programme boasting exclusive connections with its placement environments, enabling access to a range of real-life situations in both clinical and community environments as well as access to simulation suites. This embedded work-based programme will provide a challenging balance between the development of core skills and professional practice required by Hearing Aid Audiologists who have knowledge in basic sciences, medical aspects of audiology, audiological techniques, hearing advice and rehabilitation.

At the end of the first year of studies on the FdSc Hearing Aid Audiology, students who are no longer or able to continue on a clinical programme can either exit their studies with the Certificate of Higher Education or transfer their studies onto the non-clinical Foundation Degree Health Studies. Neither of these qualifications will provide students with the eligibility to apply for registration with the Health and Care Professions Council (HCPC).

Students will be supported with the decision to transfer their studies onto this non-clinical pathway at the end of the first year of studies. Students who elect to continue onto the clinical programme, FdSc Hearing Aid Audiology, can still transfer their studies within the first 5 weeks of the second year onto the non-clinical programme, FdSc Health Studies.

2.3. Details of Accreditation by a Professional/Statutory Body (if appropriate)

N/A

2.4. Exceptions to Regulations

N/A

2.5. Programme Aims

The programme will provide:

1. a compassionate, competent and confident Hearing Aid Dispenser who is able to practise within the legal and ethical boundaries of their profession.
2. a range of audiological specific skills and transferable knowledge to support their continuing personal, professional and academic development.
3. the academic knowledge and skills to enhance understanding of the key concepts of the knowledge base of the Hearing Aid Dispenser role and its impact on professional practice.
4. the ability to analyse relevant academic theories and concepts to enhance work performance through work based learning and take into consideration personal and cultural awareness to work across organisational boundaries.
5. a range of subject-specific and transferable knowledge and skills to support continuing personal, professional and academic development through the use of work based learning and classroom participation.

1. Programme Intended Learning Outcomes

8.1. Knowledge and understanding

On successful completion graduates should have developed:

- 1) The ability to integrate principles, theory and practice in the context of audiological science utilising information from a wide variety of sources including current research.
- 2) Knowledge of the physiology, organisation and function of the auditory and audiovestibular processes and human needs across the lifespan.
- 3) The skills to critically analyse the importance of using current evidence-based practice to improve the quality of service delivery as a Hearing Aid Dispenser.

8.2. Cognitive and intellectual skills

On successful completion graduates should have developed:

- 1) A range of established techniques to initiate and undertake critical analysis of information and be able to propose appropriate solutions to address any concerns.
- 2) The ability to apply problem-solving and critical thinking skills in academic and practice settings taking account of relevant social, cultural, psychological and ethical issues.
- 3) Effective communication skills, in order to deal with a variety of both straightforward and complex subjects, and patients with different cultural and socioeconomic needs.

8.3. Key and transferable skills

On successful completion graduates should have developed the ability to:

- 1) Communicate complex, sensitive information to a wide variety of professionals through a variety of methods including the use of interpersonal skills, written and verbal

effectiveness, accurate record keeping, keeping information confidential and appropriate use of technology and equipment for the role including data entry.

- 2) Apply the qualities and transferable skills necessary for their employment that require a professional value base and personal responsibility and accountability.
- 3) Evaluate the appropriateness of different approaches to solving problems within their area of practice.

8.4. Employment related skills

On successful completion graduates should have developed:

- 1) Self-awareness through reflection and the performance required within own sphere of practice, in accordance with values and behaviours of a Hearing Aid Dispenser.
- 2) The ability to maintain and further develop own skills and knowledge, and that of others, through recognised Continued Professional Development (CPD) activities enabling flexibility in practice and responsiveness to changing service needs.
- 3) Appropriate leadership within the scope of the role to effectively manage own case load and promote inter-professional and multidisciplinary team working.

8.5. Practical skills

On successful completion graduates should have developed:

- 1) The ability to provide and promote holistic patient/person-centred care and support, duty of care and safeguarding of individuals.
- 2) Competence in a range of relevant clinical, technical and administrative procedures relevant to the scope of practice.
- 3) Interdisciplinary skills for both straightforward and complex work, in one-to-one and in group and team situations in order to plan, organise, allocate, review and evaluate their own practice in a variety of settings.

2.6. Progression Route(s)

BSc (Hons) Enhanced Integrated Care at South Devon College.

Successful completion of the FdSc Hearing Aid Audiology enables students to progress to a BSc (Hons) Enhanced Integrated Care at South Devon College.

Progression opportunities for further study and career prospects will be discussed with all students as part of the ongoing tutorial delivery throughout the academic year.

Admissions Criteria

All applicants must have GCSE (or equivalent) Maths and English at Grade 4 or above (C or above)

Entry Requirements for FdSc Hearing Aid Audiology	
A-level/AS-level	Normal minimum entry requirements are 48 UCAS points at A-level
BTEC National Diploma/QCF Extended Diploma	Normal minimum entry requirements are 48 UCAS points
Access to Higher Education at level 3	Normal minimum entry requirements are 48 UCAS points, with a minimum of 24 credits at Merit
Welsh Baccalaureate	Normal minimum entry requirements are 48 UCAS points
Scottish Qualifications Authority	Normal minimum entry requirements are 48 UCAS points, from Scottish Advanced Highers
Irish Leaving Certificate	Normal minimum entry requirements are 48 UCAS points, from Higher Level, and Ordinary Level Grade C Maths and English
International Baccalaureate	Normal minimum entry requirements are 48 UCAS points, from Higher Level
Level of English	For applicants with international qualifications, must be able to demonstrate a level of English equivalent to an overall 7.0 on the International English Language Testing System (IELTS) with 6.5 in all other elements.
Work Experience	1 Year's previous experience within a health care setting is desirable but not essential
Interviews	There is a two-stage interview process, which involves representation from local Healthcare providers, where applicants are required to demonstrate the necessary motivation, potential, experience and/or knowledge to follow their chosen programme successfully.
Disclosure & Barring Service Enhanced Check	As you will be working with the public you will be required to complete an online enhanced Disclosure & Barring Service (DBS) check prior to the start of the academic term and this must be renewed as required throughout the duration of the course. An enhanced DBS check covers all previous convictions, including spent ones. Further information is available via the UCSD Applicants with Criminal Convictions and the Disclosure and Barring Service (DBS) Procedure.
Occupational Health Check	You will be required to undertake a confidential online Health Check prior to the start of the academic term and further occasional health assessments may also be required. Further information is available via the UCSD Pre Course Occupational Health Screening Process.
Admissions Criteria for Higher Level Apprentices	Government funding rules require that an apprentice must have the right to live and work in the UK, must be in employment, paid at least the legal minimum wage and have a written and signed agreement

for the apprenticeship with their employer. The minimum duration periods for an apprenticeship set in each Apprenticeship Standard, is based on an apprentice working a minimum of 30 hours per week. Where the apprentice works fewer than 30 hours, the minimum duration of the apprenticeship must be increased on a pro-rata basis.

Funding for the apprenticeship is provided through the Education and Skills Funding Agency (ESFA) and is paid in the following way:

- Levy paying employers with sufficient funds in their digital account – 100% funding
- Non Levy payers -90% ESFA funding, 10% Employer co- funding. Non-levy paying companies will be asked to pay their 10% of the full cost of the apprenticeship at the start of the programme

All candidates must be employed in a role related to the subject matter of the Higher Apprenticeship and be sponsored by their employer. Funding for this degree is provided by the Education and Skills Funding Agency (ESFA) who will pay two-thirds of the student fees and the employer who will pay the remainder of the fees plus a salary to the apprentice.

All Higher Apprentices must be interviewed, assessed and offered a position by an employer before being admitted to the degree. Although the College may receive direct applications and filter these applications before passing them to prospective employers, some apprentices may apply directly to an employer. Either way, after acceptance by an employer, South Devon College will require a formal application, which it will assess according to the programme entry criteria

2.7. Programme Structure

Level 4					
Module Code	Module Title	Credits	Year of Delivery*	Semester / Term of Delivery	Core / Optional
UCSD1006	Clinical Education Preparatory Skills	0	2021/22	Pre-Course	Core

South Devon College Module Record

3. Module Records

SECTION A: DEFINITIVE MODULE RECORD. *Proposed changes must be submitted via the HE Faculty Office Procedures for approval and issue of new module code.*

MODULE CODE: UCSD1006 **MODULE TITLE:** Clinical Education Preparatory Skills
CREDITS: 0 **FHEQ LEVEL:** 4 **HECOS CODE:** Research Skills 100962
PRE-REQUISITES: None **CO-REQUISITES:** None **COMPENSATABLE:** Yes

SHORT MODULE DESCRIPTOR:

This non-credit bearing module provides information and techniques for participatory training to prepare students for the underpinning clinical education qualification. It is intended to support students from who may not have undertaken any formal education for some time and/or have no higher education experience with essential skills and tools to undertake a foundation degree qualification within clinical education.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions] – see [Definitions of Elements and Components of Assessment](#)

C1 (Coursework)	100%	P1 (Practical)	Pass/Fail		
------------------------	------	-----------------------	-----------	--	--

SUBJECT ASSESSMENT PANEL to which module should be linked: FdSc Assistant Practitioner

Professional body minimum pass mark requirement: N/A

MODULE AIMS:

This is a non-credited module which aims to develop students’ study skills required to undertake academic study in Higher Education.

ASSESSED LEARNING OUTCOMES: (additional guidance below; please refer to the Programme Specification for relevant award/ programme Learning Outcomes.

At the end of the module the learner will be expected to be able to:

Assessed Module Learning Outcomes	Award/ Programme Learning Outcomes contributed to
LO1. Identify the differences between academic and reflective writing for healthcare LO2. Demonstrate an understanding of descriptive and analytical writing LO3. Develop coherent arguments using a structured framework whilst utilising relevant contemporary evidence to both support and refute a proposition or argument LO4. Demonstrate Harvard referencing system consistently.	Knowledge and Understanding 3 Cognitive and Intellectual Skills 1 & 2 Key and Transferable Skills 3 Employment Related Skills 1 & 2

DATE OF APPROVAL: XX/XX/XXXX	AWARDING BODY: South Devon College
DATE OF IMPLEMENTATION: 01/2020	SEMESTER: Semester One
DATE(S) OF APPROVED CHANGE: XX/XX/XXXX	

SECTION B: DETAILS OF TEACHING, LEARNING AND ASSESSMENT

Items in this section must be considered annually and amended as appropriate, in conjunction with the Module Review Process. Some parts of this page may be used in the KIS return and published on the extranet as a guide for prospective students. Further details for current students should be provided in module guidance notes.

ACADEMIC YEAR: 2021/22

MODULE LEADER: Laura Fuller

NATIONAL COST CENTRE: 105

OTHER MODULE STAFF: Hannah Rollins, Giulio Specchia,
Glen Weaver

Summary of Module Content

This module offers students an appropriate level of academic literacy and research conventions in healthcare. Students will obtain the key skills and main concepts relating to ICT, computers, devices, and software competences to support academic and professional practice. The module enables students to learn through best practice and provides them with the enhanced skills in information literacy, including search strategies, identification and critical selection of quality, scholarly information. The module aims to give students guidance in how to deal with the main writing and reading tasks that are required of them in an academic context. The course will be very practical and will maintain relevance by encouraging students to use material from their own academic studies as a basis for the classes.

Areas covered will include:

- Writing
 - Types of essay
 - Analysis of essay titles
 - Planning an argument
 - Supporting arguments and acknowledging sources
 - Text cohesion and signposting
 - Academic style and register
- Reading
 - Identifying key themes and ideas
 - Following and analysing arguments
 - Selecting and prioritising information
 - Using bibliographies and extending your research
 - Scope and syllabus

SUMMARY OF TEACHING AND LEARNING [Use HESA KIS definitions]		
Scheduled Activities	Hours	Comments/Additional Information (briefly explain activities, including formative assessment opportunities)
Online distance learning supported by problem based study materials including directed reading and contact / structured discussion with peers and academic and e-tutor staff.		
Total	-	(NB: 1 credit = 10 hours of learning; 10 credits = 100 hours, etc.)

SUMMATIVE ASSESSMENT

Element Category	Component Name	Component Weighting

South Devon College Module Record

SECTION A: DEFINITIVE MODULE RECORD.

MODULE CODE: UCSD1027 **MODULE TITLE:** Introduction to Hearing Aid Audiology
CREDITS: 10 **FHEQ LEVEL:** 4 **HECOS CODE:** Audiology 100257
PRE-REQUISITES: UCSD1006 **CO-REQUISITES:** UCSD1029 **COMPENSATABLE:** No

SHORT MODULE DESCRIPTOR:

Module will enable students to develop their understanding of the sector and the environments in hearing aid audiology. Students will explore the impact of political, social, economic and technological factors and consider the legal and ethical frameworks informing hearing aid audiologists. Students will also reflect on their current or potential roles and develop an understanding of the professional Code of Practice.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions] – see [Definitions of Elements and Components of Assessment](#)

T1 (Test)	50%	C1 (Coursework)	50%		
------------------	-----	------------------------	-----	--	--

SUBJECT ASSESSMENT PANEL to which module should be linked: FdSc Hearing Aid Audiology

Professional body minimum pass mark requirement: NA

MODULE AIMS:

By the end of this module students will be able to:

- Demonstrate the underpinning knowledge of psychosocial dimensions of health, providing the foundations for study and practice in Hearing aid audiology
- Demonstrate the theoretical knowledge curtailing to the attributes and behaviours required for effective and reflective clinical practice

ASSESSED LEARNING OUTCOMES:

At the end of the module the learner will be expected to be able to:

Assessed Module Learning Outcomes	Award/ Programme Learning Outcomes contributed to
LO1. Demonstrate an awareness of the roles, responsibilities and boundaries of professionals, voluntary agencies and carers involved with clients, in order to deliver profession specific care within an interdisciplinary context. LO2. Evaluate an understanding of the theoretical knowledge which underpins hearing aid audiological practice, by analysing information from biomedical behavioural and social sciences, linguistics, psychology and audiological science. LO3. Demonstrate knowledge of codes of conduct relevant to the sale of hearing aids and/or other devices and of associated professional services LO4. Reflect on basic business practice as it operates at a practical level within the private hearing sector,	Knowledge and Understanding 3 Cognitive and Intellectual Skills 1 & 2 Key and Transferable Skills 2 & 3 Employment Related Skills 1 & 2

DATE OF APPROVAL: XX/XX/XXXX	AWARDING BODY: South Devon College
DATE OF IMPLEMENTATION: 01/2020	SEMESTER: Semester One
DATE(S) OF APPROVED CHANGE: XX/XX/XXXX	

analysing external factors affecting the sector as a whole, including markets and consumers.

ACADEMIC YEAR: 2021/22

NATIONAL COST CENTRE: 103

MODULE LEADER: Giulio Specchia

OTHER MODULE STAFF:

Summary of Module Content

This module is intended to support the development of understanding of the nature of the work sector in its broadest sense including the environments in hearing aid audiology, performance within these contexts and factors that influence the operation of organisations. Students will explore the impact of political, social, economic and technological factors on hearing aid audiology and consider the legal and ethical frameworks informing hearing aid audiologists. Students will also reflect on their current role or potential roles within the sector.

Topic areas covered in this module include:

- Hearing aid audiology and other related work environments
- Influences on practice and trends in the environment
- Operational requirements
- Career progression and changing roles in public and private sector

SUMMARY OF TEACHING AND LEARNING [Use HESA KIS definitions]		
Scheduled Activities	Hours	Comments/Additional Information (briefly explain activities, including formative assessment opportunities)
VLE Activity	20	Academic forum, topic based quiz, reflective learning journal
Guided Independent Study	80	Independent Reading and Individual Assignment and Preparation
Total	100	(NB: 1 credit = 10 hours of learning; 10 credits = 100 hours, etc.)

SUMMATIVE ASSESSMENT

South Devon College Module Record

SECTION A: DEFINITIVE MODULE RECORD. *Proposed changes must be submitted via the HE Faculty Office Procedures for approval and issue of new module code.*

MODULE CODE: UCSD1028 **MODULE TITLE:** Auditory Sciences
CREDITS: 10 **FHEQ LEVEL:** 4 **HECOS CODE:** Audiology 100257
PRE-REQUISITES: None **CO-REQUISITES:** None **COMPENSATABLE:** No

SHORT MODULE DESCRIPTOR:

Provides students with a theoretical understanding of sounds including acoustics and psychoacoustics. Students will gain an understanding of sound measurement in the workplace so that they are able to sufficiently understand the scientific basis for correct rational and diagnosis involved in audiological assessment. This module underpins the development of assessment and rehabilitation skills in the sector.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions] – see [Definitions of Elements and Components of Assessment](#)

T1 (Examination)	50%	C1 (Coursework)	50%		
-------------------------	-----	------------------------	-----	--	--

SUBJECT ASSESSMENT PANEL to which module should be linked: FdSc Hearing Aid Audiology

Professional body minimum pass mark requirement: NA

MODULE AIMS:

By the end of this module students will be able to:

- Provide an enhanced understanding and increased knowledge of acoustics and how this is applied in practice
- Provide an enhanced understanding and increased knowledge of psychoacoustics and how this is considered in the rationale for assessment and effective management.

ASSESSED LEARNING OUTCOMES: (additional guidance below; please refer to the Programme Specification for relevant award/ programme Learning Outcomes.

At the end of the module the learner will be expected to be able to:

Assessed Module Learning Outcomes	Award/ Programme Learning Outcomes contributed to
LO1. Demonstrates an understanding of psycho-acoustics and perceptual models including the perception of speech LO2. Appraise the physiological and psychological mechanisms which affect human perception of sound LO3. Demonstrates an understanding of interaural time delay (ITD) and interaural intensity delays (IID) LO4. Demonstrates an understanding of the principles of acoustic energy transmission including pitch, loudness and timbre perception	Knowledge and Understanding 1, 2 & 3 Cognitive and Intellectual Skills 1 Key and Transferable Skills 3

DATE OF APPROVAL: XX/XX/XXXX	AWARDING BODY: South Devon College

OTHER MODULE STAFF:

Summary of Module Content

This module will provide students with a thorough understanding of sound, its measurement and psychological factors in hearing are fundamental to audiology practice. A basic understanding of biological and physical sciences are also essential to the hearing aid audiologist, so that they can understand the scientific basis of hearing sufficiently to make a correct assessment of whether the patient has an impairment and understand the rationale for assessment. This module introduces students to acoustics - the physics of sound, the measurement of sound in practice and in workplace settings, and also the relation between sound and sound perception. This equips the student to understand the nature of hearing and use this as a foundation for the development of assessment and management skills.

Topic areas covered in this module include:

- The physics of sound
- The measurement of sound
- The relationship between sound and sound perception

SUMMARY OF TEACHING AND LEARNING [Use HESA KIS definitions]		
Scheduled Activities	Hours	Comments/Additional Information (briefly explain activities, including formative assessment opportunities)
VLE Activity	20	Academic forum, topic based quiz, reflective learning journal
Guided Independent Study	80	Independent Reading and Individual Assignment and Preparation
Total	100	(NB: 1 credit = 10 hours of learning; 10 credits = 100 hours, etc.)

SECTION A: DEFINITIVE MODULE RECORD. *Proposed changes must be submitted via the HE Faculty Office Procedures for approval and issue of new module code.*

MODULE CODE: UCSD1029 **MODULE TITLE:** Clinical Practice in Hearing Aid Audiology 1
CREDITS: 40 **FHEQ LEVEL:** 4 **HECOS CODE:** Audiology 100257
PRE-REQUISITES: None **CO-REQUISITES:** None **COMPENSATABLE:** No

SHORT MODULE DESCRIPTOR:

Provides students with the opportunity to learn in practice and undertake audiological procedures on patients in a clinical environment. The work placement develops knowledge and skills as well as allowing for examination of practical skills. Students will critically appraise on the learning experience, demonstrating information gathering and descriptive skills and an awareness of ethical and cultural issues.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions] – see Definitions of Elements and Components of Assessment					
E2 (Clinical Examination)	50%	C1 (Coursework)	50%	P1 (Practical)	Pass/Fail

SUBJECT ASSESSMENT PANEL to which module should be linked: FdSc Hearing Aid Audiology

Professional body minimum pass mark requirement: NA

MODULE AIMS:

By the end of the module students will be able to:

- Formulate an integrated approach to developing knowledge, understanding and skills in the workplace.
- Evaluate and reflect on effectiveness of professional practice, using a range of qualitative and quantitative measures

ASSESSED LEARNING OUTCOMES:

At the end of the module the learner will be expected to be able to:

Assessed Module Learning Outcomes	Award/ Programme Learning Outcomes contributed to
LO1. Analyse the relationship between theoretical perspectives and work based practice LO2. Demonstrate competency through engaging with the practice assessment document to demonstrate personal and professional development LO3. Demonstrate professional and occupational standards relating to own specific practice LO4. Reflect on and analyse the relationship between organisational culture and goals and specific practice.	Knowledge and Understanding 1, 2 & 3 Cognitive and Intellectual Skills 1, 2 & 3 Key and Transferable Skills 1, 2 & 3 Employment Related Skills 1 & 2 Practical Skills 1, 2 & 3

OTHER MODULE STAFF:

Summary of Module Content

Learning in the work place is an integral part of the foundation degree. The work environment provides a rich setting for exploration and discovery of a range of knowledge, skills and understanding. Students will be offered the opportunity to relate to further developing learners' knowledge and understanding of the workplace whilst examining the acquisition of practical skills in current employment. Knowledge and skills are developed in a way directly relevant to the workplace.

Topics covered in this module include:

- Understanding the work environment
- Maintaining health, safety and well-being of the work environment, co-workers clients and visitors
- Communication in the work place - between workers, stakeholders and customers/clients
- Occupational standards

SUMMARY OF TEACHING AND LEARNING [Use HESA KIS definitions]		
Scheduled Activities	Hours	Comments/Additional Information (briefly explain activities, including formative assessment opportunities)
Scheduled activity	48	Lectures delivered during block delivery
Practice Based Learning	340	Clinical placement activity with mentor supervision and support
Guided Independent Study	12	Independent reading and Individual assignment preparation
Total	400	(NB: 1 credit = 10 hours of learning; 10 credits = 100 hours, etc.)

SUMMATIVE ASSESSMENT

South Devon College Module Record

SECTION A: DEFINITIVE MODULE RECORD. *Proposed changes must be submitted via the HE Faculty Office Procedures for approval and issue of new module code.*

MODULE CODE: UCSD1030 **MODULE TITLE:** Anatomy, Physiology and Pathology of the Audio-Vestibular System

CREDITS: 20 **FHEQ LEVEL:** 4 **HECOS CODE:** 100264

PRE-REQUISITES: UCSD1028 **CO-REQUISITES:** None **COMPENSATABLE:** No

SHORT MODULE DESCRIPTOR:

Student will develop knowledge of anatomical and physiological terms describing the auditory and vestibular systems, and gain an understanding of pathological processes essential to the hearing aid audiologist in order to understand the causes of hearing impairment and the physiological responses to injury and infection, and changes in structure and function of the auditory system relating to age and environmental factors.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions] – see [Definitions of Elements and Components of Assessment](#)

T1 (Test)	100%
------------------	------

SUBJECT ASSESSMENT PANEL to which module should be linked: FdSc Hearing Aid Audiology

Professional body minimum pass mark requirement: NA

MODULE AIMS:

By the end of this module students will be able to:

- Demonstrate an understanding of the anatomy and physiology of the ear and the auditory system
- Demonstrate an understanding of the clinical and practical aspects of ear diseases (Central, Peripheral and Vestibular disorders).

ASSESSED LEARNING OUTCOMES:

At the end of the module the learner will be expected to be able to:

Assessed Module Learning Outcomes	Award/ Programme Learning Outcomes contributed to
LO1. Demonstrate extensive, detailed critical knowledge and understanding of the structure and function of the audiovestibular system LO2. Demonstrate a sound knowledge base and understanding in relation to pathophysiology of the audiovestibular system LO3. Demonstrate analysis and judgement in the interpretation, use and evaluation of appropriate pathophysiology. LO4. Demonstrate synthesis and application of the knowledge in the management of health and illness in the individual (contextualised to hearing aid audiology)	Knowledge and Understanding 1, 2 & 3 Cognitive and Intellectual Skills 1 & 2 Key and Transferable Skills 2 & 3 Employment Related Skills 2

SUBJECT ASSESSMENT PANEL to which module should be linked: FdSc Hearing Aid Audiology

Professional body minimum pass mark requirement: NA

MODULE AIMS:

By the end of this module students will be able to

- Demonstrate the understanding of the principles of acoustic science relevant to the assessment of the adult hearing aid patient, including the interpretation and communication of results.
- Apply the techniques of assessment including that of pure-tone audiometry with masking.

ASSESSED LEARNING OUTCOMES:

At the end of the module the learner will be expected to be able to:

Assessed Module Learning Outcomes	Award/ Programme Learning Outcomes contributed to
LO1. Recognise signs and symptoms of medical conditions from otoscopy and history taking, and to make an appropriate decision on management and referral within the current scope of practice LO2. Perform otoscopy to current professional standards and advise the client, as appropriate, on hygiene and earwax management LO3. Perform safely and accurately air and bone conduction pure tone audiometry according to BSA procedures, with masking when appropriate and explain and interpret the results LO4. Elicit and record a patient history and generate a report on completed audiometric results	Knowledge and Understanding 1, 2 & 3 Cognitive and Intellectual Skills 1, 2 & 3 Key and Transferable Skills 1, 2 & 3 Employment Related Skills 1, 2 & 3 Practical Skills 1, 2 & 3

South Devon College Module Record

SECTION A: DEFINITIVE MODULE RECORD. *Proposed changes must be submitted via the HE Faculty Office Procedures for approval and issue of new module code.*

MODULE CODE: UCSD2046 **MODULE TITLE:** Communication and Rehabilitation
CREDITS: 20 **FHEQ LEVEL:** 5 **HECOS CODE:** Audiology 100257
PRE-REQUISITES: UCSD1032 **CO-REQUISITES:** UCSD2048 **COMPENSATABLE:** No
SHORT MODULE DESCRIPTOR:

Module will enable students to deepen their understanding of the concepts and methods of aural rehabilitation, enabling students to deal with complex issues both systematically and creatively, making sound judgements in the absence of complete data. Students will gain an understanding of the concepts and methods of adult rehabilitation, developing specialist skills in aural rehabilitation.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions] – see [Definitions of Elements and Components of Assessment](#)

C1 (Coursework)	80%	P1 (Practical)	20%		
------------------------	-----	-----------------------	-----	--	--

SUBJECT ASSESSMENT PANEL to which module should be linked: FdSc Hearing Aid Audiology

Professional body minimum pass mark requirement: NA

MODULE AIMS:

By the end of this module students will be able to:

- Demonstrate the knowledge base to support provision of a service for patients with a wide range of hearing problems.
- Develop and use a range of counselling and communication skills to enable people with hearing loss to make informed choices about management of chronic hearing loss and to appreciate the ways in which change, and development can be sustained through effective helping relationships.

ASSESSED LEARNING OUTCOMES: (additional guidance below; please refer to the Programme Specification for relevant award/ programme Learning Outcomes.

At the end of the module the learner will be expected to be able to:

Assessed Module Learning Outcomes	Award/ Programme Learning Outcomes contributed to
LO1. Demonstrate an understanding of the key communication skills required to enable patients to choose audiological interventions LO2. Identify and describe a wide range of different, strategies skills, tools and other resources potentially available in practice to improve the patient’s hearing-related quality of life and explain the main advantages and disadvantages for common forms of hearing loss and psychosocial circumstance.	Knowledge and Understanding 1, 2 & 3 Cognitive and Intellectual Skills 1, 2 & 3 Key and Transferable Skills 1, 2 & 3 Employment Related Skills 1, 2 & 3 Practical Skills 1, 2 & 3

DATE OF APPROVAL: XX/XX/XXXX	AWARDING BODY: South Devon College
DATE OF IMPLEMENTATION: 09/2020	SEMESTER: Semester Two
DATE(S) OF APPROVED CHANGE: XX/XX/XXXX	

LO3. Critically analyse the stages of change that affect audiological rehabilitation and their influences on patient behaviour with appropriate consideration to health status measures and their function

LO4. Acquire and demonstrate the awareness of the limits and boundaries of personal competence in applying counselling skills in relationships with patients

SECTION B: DETAILS OF TEACHING, LEARNING AND ASSESSMENT

ACADEMIC YEAR: 2021/22

NATIONAL COST CENTRE: 103

MODULE LEADER: Giulio Specchia

OTHER MODULE STAFF:

Summary of Module Content

Topics covered in this module include:

- Introduction to Counselling & Communication Skills
- Use of Research Evidence
- Psychological & Social impacts on hearing function
- Health Status Measures
- Holistic approaches to Helping
- Auditory Interventions and speech cues
- Theory of Change
- Coaching Models
- Solution Focused Therapy
- Transactional Analysis
- Decision making tools and their application
- The role of networks and support systems
- Mentoring, support and supervision

SUMMARY OF TEACHING AND LEARNING [Use HESA KIS definitions]		
Scheduled Activities	Hours	Comments/Additional Information (briefly explain activities, including formative assessment opportunities)
Scheduled activities and Simulation	32	Theory/Practice/Skill development through lectures and simulation
Guided Independent Study	168	Independent reading and individual assignment preparation
Total	200	(NB: 1 credit = 10 hours of learning; 10 credits = 100 hours, etc.)

SUMMATIVE ASSESSMENT

Element Category	Component Name	Component Weighting
Coursework	Poster (1000 words) LO1 & LO3	100%
Practical	Role Play LO2 & LO4	100%

REFERRAL ASSESSMENT

Element Category	Component Name	Component Weighting
Coursework	Referral Essay LO1 & LO3	100%
Practical	Video Presentation LO2 & LO4	100%

To be completed when presented for Minor Change approval and/or annually updated

South Devon College Module Record

SECTION A: DEFINITIVE MODULE RECORD. *Proposed changes must be submitted via the HE Faculty Office Procedures for approval and issue of new module code.*

MODULE CODE: UCSD2047 **MODULE TITLE:** Specialist Practice and Professional Issues
CREDITS: 20 **FHEQ LEVEL:** 5 **HECOS CODE:** Audiology 100257
PRE-REQUISITES: None **CO-REQUISITES:** None **COMPENSATABLE:** No

SHORT MODULE DESCRIPTOR:

This module provides students with additional knowledge and understanding of the roles and requirements of a Hearing Aid Dispenser (HAD) using case studies and examples to illustrate concepts where appropriate. A hearing aid audiologist is an autonomous practitioner and must be able to draw together knowledge and skills from different areas of their education and training to apply selectively in particular situations.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions] – see [Definitions of Elements and Components of Assessment](#)

E2 (Examination)	Pass/Fail	C1 (Coursework)	100%		
-------------------------	-----------	------------------------	-------------	--	--

SUBJECT ASSESSMENT PANEL to which module should be linked: FdSc Hearing Aid Audiology

Professional body minimum pass mark requirement: the Pass mark for the Exam is 70%

MODULE AIMS:

By the end of this module students will be able to:

- Demonstrate an in-depth legal knowledge and business skills required to dispense hearing aids in the private sector as an independent or employed dispenser.
- Meet the eligibility criteria to apply for registration as a Hearing Aid Dispenser (HAD) with the Health and Care Professions Council (HCPC)

ASSESSED LEARNING OUTCOMES:

At the end of the module the learner will be expected to be able to:

Assessed Module Learning Outcomes	Award/ Programme Learning Outcomes contributed to
LO1. Recognise Professional registration and regulation and identify the role of professional bodies/societies LO2 Recognise consumer protection and marketing in relation to professional body requirements LO3 Recognise the role of business planning in relation to hearing aid dispensing LO4 Recognise quality control and audit as a hearing aid dispenser LO5 Identify health and safety and safeguarding as a hearing aid dispenser LO6 Recognise hearing aid technology updates within the role of a hearing aid dispenser	Knowledge and Understanding 1, 2 & 3 Cognitive and Intellectual Skills 1, 2 & 3 Key and Transferable Skills 1, 2 & 3 Employment Related Skills 1, 2 & 3 Practical Skills 1, 2 & 3

DATE OF APPROVAL: XX/XX/XXXX	AWARDING BODY: South Devon College

South Devon College Module Record

SECTION A: DEFINITIVE MODULE RECORD. *Proposed changes must be submitted via the HE Faculty Office Procedures for approval and issue of new module code.*

MODULE CODE: UCSD2048 **MODULE TITLE:** Hearing Aid Technology and Assistive Listening Devices

CREDITS: 20 **FHEQ LEVEL:** 5 **HECOS CODE:** Audiology 100257

PRE-REQUISITES: UCSD1033 **CO-REQUISITES:** UCSD1032 & UCSD2046 **COMPENSATABLE:** No

SHORT MODULE DESCRIPTOR:

Provides in-depth understanding of the components of modern hearing aids and their response characteristics. Students will review the trends in contemporary hearing aid technology and will develop a rationale for the selection of appropriate products for a particular patient, through the critical evaluation and comparison of physical and technical features of systems.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions] – see [Definitions of Elements and Components of Assessment](#)

C1 (Coursework)	100%	P1 (Practical)	Pass/Fail		
------------------------	------	-----------------------	-----------	--	--

SUBJECT ASSESSMENT PANEL to which module should be linked: FdSc Hearing Aid Audiology

Professional body minimum pass mark requirement: NA

MODULE AIMS:

By the end of the module students will be able to:

- Demonstrate an in depth understanding of modern hearing aids and verification with full awareness to limitations whilst remaining mindful to patients needs
- Discuss assistive listening devices with due consideration to the patients individualised need

ASSESSED LEARNING OUTCOMES:

At the end of the module the learner will be expected to be able to:

Assessed Module Learning Outcomes	Award/ Programme Learning Outcomes contributed to
LO1. Demonstrate an understanding of the composition and performance of sound processing systems, hearing protection and assistive devices used in hearing aid dispensing	Knowledge and Understanding 1, 2 & 3
LO2. Compare and evaluate product features to select an appropriate system for individual patient needs and care plan	Cognitive and Intellectual Skills 1, 2 & 3 Key and Transferable Skills 1, 2 & 3
LO3. Demonstrate the knowledge and skill to program, fit, perform and interpret objective tests in relation to a hearing aid system's performance in accordance with standard protocols	Employment Related Skills 1, 2 & 3 Practical Skills 1, 2 & 3
LO4. Demonstrate the ability to explain relevant product features and benefits/drawbacks, in order to identify, investigate and manage problems at follow-up	

DATE OF APPROVAL: XX/XX/XXXX	AWARDING BODY: South Devon College

SECTION B: DETAILS OF TEACHING, LEARNING AND ASSESSMENT

ACADEMIC YEAR: 2021/22

NATIONAL COST CENTRE: 103

MODULE LEADER: Giulio Specchia

OTHER MODULE STAFF:

Summary of Module Content

Topics covered in this module include:

- Digital systems and assistive devices
- Advanced sound processing systems - strengths, weaknesses, response characteristics and maintenance
- Objective and subjective tests of hearing aid performance
- Hearing protection
- Advanced product selection, programming, fitting and problem-solving
- Advice to patient

SUMMARY OF TEACHING AND LEARNING [Use HESA KIS definitions]		
Scheduled Activities	Hours	Comments/Additional Information (briefly explain activities, including formative assessment opportunities)
Scheduled activities and Simulated Activity	32	Lectures and simulated activity to support learning and practical skills within block delivery
Guided Independent Study	168	Directed distance learning including practical plus regular contact by email/VLE
Total	200	(NB: 1 credit = 10 hours of learning; 10 credits = 100 hours, etc.)

SUMMATIVE ASSESSMENT

Element Category	Component Name	Component Weighting
Coursework	Essay LO1 & LO4	100%
Practical	Practical Assessment of Skills in simulation LO2 & LO3	P/F

REFERRAL ASSESSMENT
